January 2014

Warrego Highway and Brisbane Valley intersection upgrade – Changed traffic conditions and night works

As part of the Warrego Highway and Brisbane Valley intersection upgrade, the Department of Transport and Main Roads will permanently restrict the traffic movement to left-in/left-out at the Wulkuraka Connection Road and the outbound Warrego Highway.

This closure will have two main impacts (detailed overleaf):

1. **Motorists travelling north on Wulkuraka Connection Road** who wish to access the Brisbane Valley Highway or eastbound/inbound Warrego Highway are required to turn left onto the westbound/outbound Warrego Highway and then perform a u-turn approximately 450m west of Wulkuraka Connection Road at the temporary u-turn facility. This u-turn facility will accommodate all vehicles, including B-Doubles. These changed traffic conditions will be in place from early February 2014 until mid-2014 and are necessary to allow safe construction works of the new interchange.

2. **Heading east on the Warrego Highway, the right/south turning lane** onto Wulkuraka Connection Road will permanently close. Motorists wishing to exit onto the Wulkuraka Connection Road will now be required to continue along the Warrego Highway for an additional 2.5kms, exit using the Pine Mountain Road off-ramp at Muirlea, travel along the overpass and re-enter the westbound/outbound Warrego Highway. Motorists can then turn left/south from the Warrego Highway onto the Wulkuraka Connection Road. This change will be in place from early February 2014.

Additional night works will be conducted along both the westbound and eastbound Warrego Highway lanes between 20 January and 9 February 2014 to undertake asphalting and bridge works.

Signage will be installed at these locations to assist motorists.

The Department of Transport and Main Roads appreciates your patience during these important works and will make every effort to keep disruption to a minimum. We apologise for any inconvenience caused.
