

IAP Class 1 Do Not Cross Structures March 2012

LEGEND In the following table applicable **RESTRICTIONS** refers to the following conditions of operation

Cannot Cross - A Class 1 Crane is not permitted to cross the structure unless the vehicle has been assessed and issued a Single Trip Special Assessment Permit to cross the structure.

Note: The start of the road is the road intersection shown on the available maps (available from the Department and Main Roads website) in the vicinity of the first location of the ROAD NAME or ROAD SECTION OR START LOCATION listed below.

The LATITUDE and LONGITUDE are an approximate location of the structure for informational purposes only, and the structure may represent differently in different mapping products. If you cannot identify the location of a structure, contact the department for assistance.
