### ***Macrozamia pauli-guilielmi* Collection & Propagation Notes – June 2021**

On June 18<sup>th</sup>, Brush Turkey Enterprises undertook an inspection for seed presence and collected seed from *Macrozamia pauli-guilielmi* at the 2 recorded populations in Tuan State Forest and also inspected sub-population 4 at the Cooroy - Curra Site.

Two (2) cones were located at the southern population in Tuan SF and nil (0) cones were collected at sub-population 4 Cooroy - Curra. Up to forty-seven (47) potentially viable seed were collected from Tuan SF.

#### **Summary:**

1. Approximately 47 fresh seed available to be sown in seed trays.
2. Some seedling mortality in early 2021, approximately 70 seedlings currently in tubestock.
3. Inspect sub-populations 1,2,3 for seed (where plants are still present) in August 2021.
