

Ipswich Motorway Upgrade

Rocklea to Darra – Stage 1 project

August 2020

New one-way left-turn lane from Granard Road to Ipswich Road service road, Rocklea

The Department of Transport and Main Roads advise that the new **one-way left-turn lane** from Granard Road onto Ipswich Road service road at Rocklea will be open to traffic week commencing Monday 24 August 2020 as shown on the attached map.

This will improve connectivity and access to local businesses in the Rocklea industrial precinct. The one-way only left-turn lane intersects Ipswich Road service road with traffic signals controlling movements.

Active transport paths are also being constructed along the service road as part of the Ipswich Motorway Upgrade. The new left-turn lane from Granard Road includes signalised crossings for control and to provide safe passage for path users.

Please drive carefully as we transition to this new road connection.

If you would like further information, please contact the project team via:
